What’s Color by Discipline?

We’ve implemented more than 600 Color-by-Discipline (CD) programs (and counting).

CD is a popular uniform code that helps patients, families and other staff quickly identify an employee’s role by the color they’re wearing.

You can assign any color to any role, but here are some of the most common color combos.

- RNs & LPNs—navy (or white)
- CNAs—wine
- Radiology—charcoal gray
- Physical Therapy—black
- Respiratory Therapy—ceil blue
- Lab—caribbean blue
- Pharmacy—rich purple

Color-coding and ordering for OR scrubs.

When ordering scrubs, be sure to include the following parts to complete each item number: **style number, color and size.**

Item numbers for reversible unisex scrubs have a fourth part: **color-coding**, designated by a -CA, -CM, or -CF. Color-coding necks and drawstrings provide instant size identification in the laundry room, storeroom and nursing units.
